consultative body may at all times be available, it is urged that Congress make provision for collecting definite and trustworthy information concerning the coal and coke industry and for the tabulation of the same in quarterly reports showing:

"1. Production. distribution, stor age and stocks of coal and coke The cost of production and distribution and of maintaining suitable

stocks, and any other data concerning the industry deemed necessary The cost of living in the several

coal fields; "4. The selling prices and profits obtained by the operators, middlemen

Export requirements and the conditions limiting them. The settlement of the present con troversy on the wage and price basis above indicated must be considered in the light of the proposal to set up this permanent, consultative body. While i will not have powers of decision, it will hardly seem possible to a reasonable man that in the light of its conclusions demands for exorbitant profits or reasonable wages can be successfully maintained, or that conditions unfav orable to the Amercan standard of living will be too tolerated.
